

## Health & Safety Information as we reopen for Holy Mass

Before the start of Lockdown 2, St Mary's underwent the annual inspections for Risk Management (Health & Safety), Fire Risk and an additional inspection for Covid 19 Safety Compliance. The inspections were carried out by Gavin Leatherbarrow, Senior Risk Manager with PiB Risk Management.

We are pleased to inform parishioners that we passed with flying colours; the inspector commenting:

*'I must congratulate you on your proactive approach to all risk management matters.'*

We were particularly pleased to note that all the efforts taken to make St Mary's 'Covid Safe' have been recognised in the report:

*'Excellent safety standards seen at the time of the review.'*

Examples of our good practice for Covid safety were commented on including, measures in place for social distancing, signage, hand sanitisers & the booking system that we have in place.

Be assured we continue to monitor and maintain these standards to ensure everyone's safety.
